April 9th is officially the second day of the Emperors Hammers strike fleet's Wargames "Imperial Storm 4." G'Rho reporters, invited by the Fleets command to assist in the publicity of the Wargames have been embedded into the ISD Warriors Fleet.

By the second day, all three ships have begun taking numerous planets. Currently Stormtrooper Legions from the Challenge have begun taking Lao Mon and Batuu. Stormtroopers from the hammer have begun taking Gannaria and Modell Secundus and the ISD Warriors forces have started Occupation of Firrerre and Spar Alpha.

Current State of the IS4 Wargames

Imperial Stormtroopers have truly shown their true force today while taking these planets. With speed and precision these forces are truly the finest in the galaxy. According to numerous reports, a lone stormtrooper on the planet Lao-Mon has stolen not one- but two Zucchini's from a civilian.

Meanwhile, unlike the the ISD Challenge's unusual "Weirdness," The ISD Warrior forces have shown complete precision and professionalism and the ground forces

have allowed reporter Kellye Find and Reag Marreth to accompany the Commander leading the occupation of Ferrerre.

The Occupation has been very fast, once troopers had taken a foothold on the planet the Warriors forces began setting up there Prefabricated Garrison. In less than a day the Garrison is completely finished and now the forces must only take a few hundred more kilometers of land before total control.

UNLIKE the likely Zucchini thievery of the ISD Challenge and Hammer, Warriors Troops have shown complete respect to the local populace on the planet and minimal interaction during the wargames have occurred between the locals and the Military Forces.

Stay tuned for more daily reports.
