

## LAMBDA SQUADRON WINS TIE CORPS IN BATTLE!

#### LPhoenix named TIE Corps Battlemaster!

After four long months, Lambda has emerged victorious for its third consecutive win with the conclusion of season seven of the TIE Corps in Battle competition. Leading the charge to victory this season was Commander LPhoenix, with an astounding 200 points! Throughout the competition, LPhoenix faced a brutal fight against Rho Squadron's own, and Baron of the TC, Vanguard88. In the end, LPhoenix managed to edge out Vanguard88 by a slim 5-point margin to remain in the lead and earn the title of TIE Corps Battlemaster! Congratulations CM LPhoenix! Utinni!

Second place for Lambda, and fourth in the competition overall, was Commander Scottrick with an impressive 78 points! As LPhoenix and Scottrick took center stage for Lambda this season, it was Solohan50, TheBlackxRanger, and me, affectionately dubbed their "back up dancers," that filled a supporting role, putting forth another 94 points into the pool. Finally, we had Xye, Sam Arsio, and last season's Battlemaster, Wolve Excelsior Berkana, who, with limited time available, were still able to aid in our success. In total, Lambda saw a 67% participation rate in this season of TCiB, a figure that is truly impressive!

Congratulations on your hard-fought victory!

### **PILOT ACCOMPLISHMENTS**

Over the past month, Lambda pilots earned several accomplishments in their service to the TIE Corps that we need to take a moment to appreciate.

Xye, after his stint as Squadron Executive Officer in Lambda and Commander of Beta Squadron, has been promoted to the rank of Major!

LPhoenix has been promoted to the rank of Commander and achieved the FCHG rank of Aquilifer, increasing his flight certification rating to the 12th Echelon!

Sam Arsio has been promoted to the rank of Lieutenant Commander and has increased his FCHG rank to Grenadier and his combat rating to Marksman 3rd!

Wolve Excelsior Berkana crossed the 4,000 LoS threshold, raising his rank to Ace Ranger 1st! He is more than 75% of the way to earning a Gold Star of the Empire!

VERY NICE WORK!

#### LAMBDA IN THE MEDIA

This month I'd like to focus on a couple of pilots that have produced media recently that should not go unnoticed.

If you are unaware, one of our premiere single player pilots, LPhoenix, has routinely created walkthroughs of all the old flight sims, as well as some Emperor's Hammer custom missions. In total, LPhoenix has over a thousand videos and he just concluded the standard campaign in X-Wing Alliance upgrade. His content is really good, and I highly suggest you check it out, especially if you're looking to get into playing the old classics or need help with a particular mission.

R۶

X-wing Alliance Upgrade - Battle 7 - Mission 4 -Phase 4: Death Star Tunnel Run

His content is regularly posted in the "streams" channel in discord or you may find it hosted on youtube at https://www.youtube.com/@LPhoenix (Image is a clickable link in the pdf version at the top of this report)

Secondly, during Imperial Storm 6, an idea was thought up to increase the immersion factor in our larger competitions. By utilizing the very same mission editors we have for crafting missions, we can create custom mission reports in TIE Fighter for use as briefings for pilots. This ingenious idea was thought up by none other than TheBlackxRanger! Ranger took this idea one step further and made a custom video for use during a squadron IAR review that combined the in-game medal award and debriefing, along with the custom TC medal. The result was magnificent!

If wish to view the video, you can search for it in discord or click on the image and you will be taken you there. (PDF Version only)

#### THE SQUADRON, FROM HERE

With two major events concluded, we are in a period of calm. We will use this time to relax and recharge. Our next major event will be Squadron Remobilization, which is loosely scheduled for May. Squadron Remobilization is a great event that has a bit of everything with goals that allow for changing the craft in our squadron line up. The idea has been floated to change out one of our flights with the unofficial Lambda Tug that we jokingly used to escape destruction in two Imperial Storms. With the mission focus of our squadron being "Insertions/Extractions," the unassuming tug outfitted with weapons and a hyperdrive may be a good fit for covert operations, so keep it in mind!

I will also begin prodding you in squadron comms for your ideas on what you would like to see implemented to shape the squadron mottos and mission statements to our liking. This is our home, after all. It is only right that we make it to our liking!

If you have any ideas you wish to suggest, feel free to post them in the squadron channel so we can get the discussion rolling!

# IN CLOSING

March was an active month for Lambda Squadron. Flight activity was at an impressive level as we participated in two major events, and we brought on some new and returning faces to the roster. As with all things, change is inevitable. Lambda will do as we always have and adapt to that change, using it as a tool to strengthen our resolve as we look to challenges in the future.

If I have one piece of advice to give you to close out this report, it is this... help control the pet population. Have your Ewoks spayed or neutered. Goodnight everyone.

Lambda, dismissed.

### Utinni!
