Tensions have been high in the past day, after a long hyperspace jump, it seems everyone on board the "The Rafter" is excited for some action. Drills are run almost every hour and the Tavern is full of pilots too sick of yearning for battle to drink.

Today reporter DeSean Mclaulis interviewed the Imperial Starship "The Flanker's" Captain, Captain Gleyn Tonmein. Captain Tonmein has a lot to say of how excited he was for Imperial Storm 4 and when asked whether he thought the Warrior would win this year he replied:

"I truly think the Warrior has a really good chance of beating the other ships this year, despite having to get used to our new Commodore, the Vice Admiral has really put forward a solid plan and I think this year will be one for the Warrior."

Recently, the ISDII "The Warrior" has had a change in command from HA Mordechi Wolf to VA Marenta.
